BUSINESS MODEL CANVAS

Date: 10/18/2026	Submitted For: Mr. Fernando Arazo Jr.	Submitted By: Group 5 4IS8	Company: KwentoHabi (Corporation)

Key Partners

- DepEd-aligned schools, universities
- Cloud hosting providers (AWS/Google Cloud)
- Invoicing and payment providers
- AI/LLM API provider

Key Activities

- Curriculum development, Teacher outreach & onboarding support
- App development & maintenance
- AI integration & prompt engineering (continuity-checking system)
- Data security management
- Material parsing and rights verification on uploads
- Designing content-safety and conflict-resolution prompts; moderation review

Key Resources

- Curriculum-aligned feedback framework
- AI continuity-checking engine with fact attribution
- Secure cloud server infrastructure
- Development team
- Parsed materials library
- Age-appropriate content-safety guidelines

Value Propositions

- Cross-author continuity checking for group writing: flags contradictions and guides students to resolve them respectfully
- Structured feedback benchmarked against a teacher's own materials or a shared archive
- Digitized story wiki generation
- Real-time plot hole/continuity checking
- Safe, age-appropriate story space with teacher-controlled content settings

Customer Relationship

- Teacher-mediated adoption (school-scoped accounts, guardian consent notice)
- Free archive access builds demand for institutional licensing

Channels

- Schools, universities, DepEd-aligned programs, writing club advisers
- Free archive access (acquisition wedge during procurement)
- Pilot classes, school social media, teacher groups

Customer Segments

- Filipino students and youth (junior and senior high, college creative writing classes)
- Teachers and writing advisers
- Student writing groups within a class

Cost Structure

- Cloud hosting fees
- AI API costs
- Developer salaries
- Cybersecurity expenses
- Curriculum development cost
- Archive curation and tagging labor
- Content-moderation API and teacher-review support

Revenue Stream

- Institutional/classroom licensing (anchor revenue)
- Marketplace fees on teacher-contributed materials
- CSR support for public schools
